

GREAT INDIAN
TRADE ALLIANCE
INDIA. ELEVATED GLOBALLY

★ GOVERNMENT-RECOGNIZED INDIAN RICE MERCHANT EXPORTERS ★

EXPORT COMMODITY PROFILE • GLOBAL SUPPLY ARCHITECTURE

PURITY IN EVERY GRAIN. PRECISION IN EVERY SHIPMENT.

Connecting India's premier Basmati and Non-Basmati milling heartlands directly to sovereign and commercial import desks worldwide through institutional transparency, on-ground verification, and direct ocean freight.

Official Trade Portal
www.greatindiantradealliance.com

Great Indian Trade Alliance (GITA) operates as a specialized merchant export powerhouse headquartered in New Delhi with field desks across Haryana, Punjab, and Gujarat. Unlike static single-facility millers vulnerable to harvest shocks, GITA aggregates supply across accredited Bühler Sortex partner mills, pairing vast origination capacity with our own on-ground verification specialists, in-house maritime freight booking, and seamless port customs clearance.

EXECUTIVE PARTNERS & LEADERSHIP COMMERCIAL DESK

YUVRAJ CHADHA
EXECUTIVE PARTNER | GLOBAL ORIENTATION & LOGISTICS

Directs international commercial origination, container liner charter contracts (Maersk, MSC, Hapag-Lloyd), and trade finance structuring (LC at Sight, CAD). Manages buyer relations across the Middle East, Europe, and Africa.

yuvraj@greatindiantradealliance.com

DAKSH GUPTA
EXECUTIVE PARTNER | SOURCING & QUALITY VERIFICATION

Leads on-ground rice verification operations across Haryana and Punjab milling hubs (Karnal, Taraori, Ambala). Enforces stringent grain elongation benchmarks, digital moisture limits (<12.5%), and container stuffing integrity.

daksh@greatindiantradealliance.com

INSTITUTIONAL MERCHANT EXPORTER INFRASTRUCTURE

01 SPECIALIST ON-GROUND VERIFICATION

Our full-time verification officers inspect raw paddy and milled lots at origin. We verify Average Grain Length (AGL), cooking elongation ratio (≥2.0x), moisture (<12.5%), and purity before approving bagging.

02 BÜHLER SORTEX PROCESSING NETWORK

Processing through strategic milling partners equipped with multi-stage German Bühler and Japanese Satake optical color sorters, eradicating chalky, discolored, or immature grains at micro-second speeds.

03 IN-HOUSE MARITIME FREIGHT CONTRACTS

Direct carrier volume contracts with tier-1 shipping lines eliminate freight forwarder markups, secure guaranteed container allocation during peak shipping seasons, and deliver ultra-competitive landed CFR/CIF rates.

04 PORT STUFFING & CUSTOMS SUPERVISION

In-house port teams stationed at Mundra, Nhava Sheva (JNPT), and Kandla supervise 100% dry-liner container preparation, install industrial silica desiccants, conduct tare checks, and execute customs clearance.

✓ Multi-Mill Origination vs Single-Plant Risk ✓ On-Ground Third-Party QA vs Self-Certification ✓ Direct Liner Space vs Forwarder Spot Rates
